

Science and Christian Faith

Encouraging informed discussion on science-faith issues and concern for the environment

Tuesday 14th June 2016, St Paul's Church, Camberley
Assemble from 7.00pm.

Illustrated talk commences at 7.30 pm followed by discussion and refreshments

Sustaining God's Earth

What factors affect the 'health of the planet?
What actions of man are putting it at risk?
Where does climate change fit in?
What ethical issues are raised by our actions?
What sort of responses can we make as individuals, as members of local groups, as supporters of charities etc?

Dr Martin Hodson is a plant scientist and environmental biologist who writes and speaks widely on environmental issues. He is an Associate Member of the Institute of Human Sciences at the University of Oxford, a Visiting Researcher in Environmental Biology at Oxford Brookes University, and Operations Manager for the John Ray Initiative.

Martin and Margot are joint authors of 'A Christian Guide to Environmental Issues' and 'Cherishing the Earth'.

Revd Margot Hodson ministers in rural Buckinghamshire, having previously been Chaplain of Jesus College, Oxford. She has taught environmental ethics at Oxford Brookes University. She is also on the management boards of the John Ray Initiative, an educational charity seeking to link faith and environment, and A Rocha.

EVERYONE WITH AN INTEREST IN SCIENCE AND FAITH IS WELCOME
