Encouraging informed discussion on science and Christian faith issues

What Will Happen The Day After Tomorrow? The Oceans and Climate Change Prof. Meric Srokosz

The sea is a good and essential part of creation but it is vulnerable to damage. Meric, from the National Oceanography Centre in Southampton, will draw on the themes of his book, "Blue Planet, Blue God", to connect the ocean with one of today's most pressing issues - climate change - and help us consider how we might respond spiritually.

Tuesday 12th June 2018, at St Peter's Church, Farnborough, GU14 7AP.
Doors open 7.00pm; Illustrated talk begins at 7.30 pm followed by Q&A and refreshments.

Admission FREE but donations will be welcome.
